About

I am a Computer Science graduate with hands-on experience in developing web applications and expertise in Java, databases, and modern frontend frameworks. I aim to contribute innovative solutions while advancing my technical skills in a dynamic and collaborative tech environment.

Education

Savitribai Phule Pune University, Master in Computer Application
CGPA: 7.74/10.0
August 2023 – Ongoing

North Maharashtra University, Bachelor in Computer Science (BSc)
CGPA: 9.49/10.0
March 2020 – March 2023

Experience

Quantify Data Solutions   *Full Stack Developer*

June 2024 - Nov 2024   Link

- Developed and maintained responsive, user-centric web applications, ensuring performance across platforms.
- Implemented front-end and back-end architecture using HTML, CSS, JavaScript, and other tools.
- Collaborated with cross-functional teams to deliver scalable and efficient web solutions on time.

Technical Skills

Languages: Java, Python, C, SQL, HTML, CSS, JavaScript
Frameworks : Spring, React, Bootstrap
Tools: Eclipse, Apache, NetBeans, Figma, Oracle SQL
Concepts: Data Structures and Algorithms, Operating Systems, Machine Learning, API Integration, Agile Methodology, Cloud Computing

Projects

Room Finder WebApp
Developed a student room finder application that helps students easily find suitable rooms with a simple and user-friendly design. Focused on creating efficient features and improving performance to provide a reliable solution that meets the needs of students.
Tools Used: HTML, CSS, JavaScript, PHP , MySQL.
Role: Led the team in designing and developing the Room Finder application. Collaborated on creating efficient search features using MySQL and PHP, ensuring robust performance and a seamless user experience.

Additional Experience and Awards

Winner Of Project Competition
KK Wagh College (2024): Secured third rank in the project competition.
Project: RoomFinder WebApplication.
Ranked in Graduation
Achieved third rank during graduation, underscoring academic excellence and dedication to learning.
